For Immediate Release  
Village Manager's Office

### **July 11 Storm Update 2**

At this time, the Village of Deerfield currently has about 1,300 customers without power resulting from this morning's storm. Village of Deerfield officials have been in contact with ComEd and we have been notified that ComEd has 575,000 customers out in their service territory and that it will be a multi-day restoration effort. Due to the configuration of ComEd's feeder system restoration crews may not be visible but are actively working on repairs at the feeder level. ComEd has indicated that they will have more accurate restoration times for individual communities tomorrow once work on the feeder lockouts are complete. Residents should expect an outage that lasts more than 1 day.

Public Works crews are currently working in town to clear the roadway of debris and remove any parkway trees causing a hazardous condition. Due to the large number of limbs down, the Village will be providing a special pick up service for downed tree limbs on private residential property beginning Wednesday. Residents should have their limbs at the curb prior to 7AM on Wednesday in order to receive a pick up. Any residents that have downed private trees should contact a private contractor for removal of the tree.

The Village encourages residents to call ComEd at 1-800-EDISON-1 (1-800-334-7661) to report power outages and to get updates on restoration times. ComEd is not always aware that an individual home's power is out.

Residents should stay away from downed power lines and call 911 if they witness fires or dangerous conditions.

The Village will continue to update the website and issue press releases as information becomes available.
