LAKE COOK ROAD RECONSTRUCTION PROJECT

The Lake Cook Road Reconstruction and Widening Project is spearheaded by the Cook County Highway Department (CCHD). This is the second part of two individual projects, the first part was completed during the 2010 construction season. The overall scope of work for the first project was to rehabilitate Lake Cook Road between Wilmot Road and Pine Street and to reconstruct and widen Lake Cook Road between Pine Street and Deerlake Road. The first project also included water main construction, as mandated by the CCHD, along Lake Cook Road within the project limits.

The scope of work for the second portion of the project, which will be occurring during the 2013 construction season, is to widen and reconstruct Lake Cook Road between Deerlake Road and Ellendale Road, rehabilitate Lake Cook Road between Ellendale Road and the east limit of the Village, and rehabilitate Waukegan Road between Chestnut Street and the Cadwell's Corner's intersection.

At this time the Village has the opportunity to install water main, sidewalk along the north and south sides of Lake Cook Road, sidewalk along the east side of Waukegan Road, landscaped medians throughout (sidewalk and landscaping is a 50/50 cost share with the CCHD), and perform point repairs on sanitary sewer mains. The Village of Deerfield water main is currently located beneath Lake Cook Road via permit, therefore the cost to relocate will be borne by the Village.

The work to be performed this season will be constructed in three stages, as was reported by the CCHD during the January 31 public meeting held at Village Hall.

GENERAL CONSOLIDATED ELECTION: APRIL 9, 2013

The General Consolidated Election will be held Tuesday, April 9, 2013. The following is voting information for the West Deerfield Township.

VOTER REGISTRATION

Are you registered to vote? If you are new to Deerfield, have moved within the Village - even just across the street - or have changed your name, you must re-register to vote. It takes just a few minutes at the West Deerfield Township Office, 601 Deerfield Road. Bring two forms of identification, one of which has your current address. No appointment is necessary to register to vote.

March 12 is the deadline to register to vote for the April, 2013 election. Grace period registration takes place at the Lake County Clerk's Office March 13 - April 6.

If you register during the grace period and want to vote in the Consolidated Election, you must vote at the time of registration.

LAKE COOK ROAD CONTINUED

Continued from Page 1

The first stage of construction will include the installation of temporary traffic signals and the demolition of median islands. During the second stage, construction

activity will be limited to the southern half of Lake Cook Road. Traffic will be reduced to one lane in each direction and will be shifted to the northern half of Lake Cook Road. The final stage will shift traffic back over to the newly constructed southern half of Lake Cook Road while the northern half of the road, and the Village of Deerfield water main, is constructed. The CCHD has committed to keeping at least one lane in each direction and left turn lanes available at all signalized intersections along Lake Cook Road for the duration of the project. The work is expected to begin in April and be completed by the end of October 2013.

In an effort to enhance communication, the Village created a project-specific website, www.LakeCookRoad.com where residents and businesses can receive up-to-date information, report a problem, view project maps, and sign up for a project newsletter.

For more information, please visit www.LakeCookRoad.com or contact Village of Deerfield Department of Public Works and Engineering at 847.317.2490 ☎

WASTEWATER RECLAMATION FACILITY REACHES SUBSTANTIAL COMPLETION

On November 1, 2010 the Village Board awarded the construction contract for the renovation of the Wastewater Reclamation Facility to Joseph J. Henderson and Son of Gurnee, IL. Construction has been ongoing since January of 2011, and is expected to reach final completion by May of 2013. Though the project was extensive in scope, service to Village residents has continued uninterrupted through the duration of the project.

Some of the most visible aspects of the project included demolition of the large trickling filter domes, elimination of the sludge drying beds, reconfiguration of Hackberry Road including the addition of angle parking to better serve users of Shepard Park, and construction of a public restroom. Plant staff is currently operating the facility as designed and it will provide improved efficiency, safety, and reliability.

The project was declared substantially complete at the February 4, 2013 Board of Trustees meeting and was partially funded through the help of former Illinois State Senator Susan Garrett. Senator Garrett was honored at a recognition ceremony at the facility's new Administration Building in December. ~

FIRE HYDRANT FLUSHING

During the week of April 15th, the Village of Deerfield Department of Public Works will begin flushing all fire hydrants within corporate limits. Opening fire hydrants and flushing out water on an annual basis allows Public Works to ensure that hydrants are in proper working condition and helps to flush sediment out of the distribution system. Signs will be posted in each area before flushing begins. The work is typically performed between the hours of 7:30 a.m. and 3:30 p.m. Monday through Friday, and takes approximately 2 weeks to complete the entire Village.

Do NOT do laundry on the day hydrants are flushed in your area. Flushing may stir up rust that can enter washing machines and cause discoloration to certain types of clothing. Additionally, there may be discoloration in the water coming from the faucets in your home after hydrant flushing is complete in your area. It is recommended that residents flush water from their interior residential system through a tub spout for a few minutes to clear out sediment. The water from the tap is safe to drink at all times.

If you have any questions, please call the Village of Deerfield Water Department at 847.307.7245 (M-F 7:00 a.m. - 3:30 p.m.) or email publicworks@deerfield.il.us ~

HEATHER ROAD/LAKE ELEANOR ROAD INFRASTRUCTURE REHABILITATION PROJECT

The Village of Deerfield Engineering Department has completed the design phase of the Heather Road/Lake Eleanor Road Infrastructure Rehabilitation Project. The design for the project began in January 2011 when the Village contracted with consulting engineers for the preparation of contract plans, specifications, and bidding documents. Final design documents have been completed and the project will go out to bid in late February allowing for construction to begin in May of 2013. The work will take approximately 12 weeks to complete.

The purpose of the project is to reconstruct and rehabilitate the existing Village roadway and utilities on Heather Road between Deerfield Road and Manor Drive and on Lake Eleanor Drive between the court and Wilmot Road. Improvements will include complete replacement of the existing water main, storm sewer improvements, and complete removal and replacement of the existing roadway. The landscaped island on Lake Eleanor Drive will remain. A bid opening will be scheduled in March, after which the Village will provide additional scope and schedule information to residents. ~

2013 STREET REHABILITATION PROJECT

The Village of Deerfield 2013 Street Rehabilitation Project will be going out to bid in May of 2013. In addition to routine maintenance items, the contract will include the reconstruction/rehabilitation of 7 streets within the Village. The project will be substantially complete by October 31, 2013. The streets that will be focused on this year are listed below:

Street Name	Starting	Ending
Bayberry Lane	Appletree Lane	Pine Street
Timberhill Road	Charing Cross Road	Bayberry Lane
Carriage Way	Fox Hunt Trail	Deerfield Road
Springfield Avenue	Jewett Park	Fair Oaks Avenue
Stratford Road	Hazel Avenue	Greenwood Avenue
Bent Creek Ridge	Carriage Way	Carriage Way
Hackberry Road	WRF Frontage	Locust Place

NORTHWEST QUADRANT UNIFIED TASK FORCE

The Northwest Quadrant Unified Task Force plans to hold a public open house on March 19th at 7 p.m. in the Robert D. Franz Council Chambers on the second floor of the Deerfield Village Hall located at 850 Waukegan Road to obtain input on the developing Master Plan for the Northwest Quadrant of the Village Center (*see map on page 5*). Residents are encouraged to attend the open house.

BACKGROUND

In late 2011, the Board of Trustees authorized the creation of the Northwest Quadrant Unified Task Force. Village Trustee Thomas Jester was appointed as Chairman. The Task Force is made up of all of the major stakeholders in the quadrant including the Deerfield Park District, Deerfield Public Library, Village of Deerfield, Presbyterian Church, AT&T, the commercial property owners along Waukegan Road, and Chairman of the Plan Commission, Village Center Development Commission, Appearance Review Commission, and the Sustainability Commission. The Northwest Quadrant of the Village Center currently suffers from a lack of pedestrian friendliness, disconnected parking lots, a disjointed roadway/circulation system, a lack of adequate space for safe drop-offs for children's day care, and a general lack of a unified campus feel.

The purpose of the Northwest Quadrant Unified Task Force was to bring together the stakeholders to study the Northwest Quadrant and work together to develop a Master Plan for the entire quadrant to benefit the community. As the majority of property in the Northwest Quadrant is public lands, the Task Force believes that property lines should not be a consideration in developing a Master Plan. The goal is to create a campus setting with amenities that will foster increased pedestrian use and community pride. Pedestrian comfort and safety would be at the forefront and cars would still be accommodated. The Village retained the consultant team of Teska Associates, Hitchcock Design, Gewalt Hamilton and Bondy Studios to help the stakeholders create a Master Plan for the Northwest Quadrant of the Village Center. The Task Force also stayed within the current Comprehensive Plan that advises no further commercial development be allowed in the Northwest Quadrant.

VISION SESSIONS

In the winter and spring of 2012, three visioning sessions were held with the Task Force to determine the goals and visions for the quadrant. The Task Force engaged in long-range thinking and brainstorming about the future of the quadrant. They looked at the entire quadrant and their scope was large and comprehensive.

The Task Force desires for the Northwest Quadrant include:

- A more pedestrian friendly and well landscaped public space.
- A vibrant public campus – a public space like no other in Deerfield.
- An extremely attractive, hospitable, safer, walkable, and environmentally friendly atmosphere.
- Retain the cluster of civic assets, and incorporation of new features.

The Task Force believes the Northwest Quadrant has much to offer and they are very proud of Jewett Park, the Farmers Market, and the public facilities in the quadrant and they believe with a campus Master Plan, the Northwest Quadrant can be transformed into the civic and cultural centerpiece of Deerfield.

MASTER PLAN

In the fall of 2012, the Northwest Quadrant Unified Task Force began to develop a Master Plan that will serve as a comprehensive design plan for the Northwest Quadrant. The Master Plan is an opportunity to make the Northwest Quadrant a more attractive public campus and an opportunity to correct several issues in the quadrant. The Master Plan is a long term plan looking many years into the future and comes to fruition over time. Some improvements may take place in the near future, and other improvements may be accomplished 15 to 20 years from now.

The Task Force is still in the process of working through the creation of a Master Plan at this time. Three workshop meetings have been held to date on October 2, October 23, and November 28. Meetings are currently being held with the stakeholders to obtain more input on the Master Plan. At the public open house, the design alternatives and the preferred Master Plan will be presented. The open house attendees are encouraged to share their comments and provide input on the Master Plan for the Northwest Quadrant of the Village Center. All related planning materials are available on the Village's website at www.deerfield.il.us.

WEST DEERFIELD TOWNSHIP

Township Board meetings will be held March 19 and April 16 at the Township Offices, 601 Deerfield Road. The Annual Town Meeting will be held April 16 prior to the Board meeting.

SPRING STORM TIPS

A NOAA weather radio can provide advance warning of a storm or tornado. There are also applications for smart-phones that can alert you of severe weather, such as OnGuard Weather Radio or Simple Weather Alerts.

A "Watch" means that conditions are present in which severe weather or a tornado could develop. A "Warning" means that severe weather or a tornado has been sighted. In either case, action to protect yourself and your family is necessary. The sirens in the Deerfield area will sound continuously for three minutes to signal a Tornado Warning. They will sound again in five minutes to signal anyone who may not have been present for the first siren.

In the event of a tornado:

- In homes or small buildings, go to the northeast corner of a basement. If a basement is not available, go to the smallest, most interior room on the lowest floor, such as a closet or bathroom. Cover yourself to protect your body from flying debris.
- In schools, hospitals, offices or shopping centers, go to the smallest, most interior rooms and hallways on the lowest floor. Stay away from glass enclosed places or areas with wide-span roofs such as auditoriums and warehouses. Crouch down and cover your head.
- In cars - abandon them immediately! Cars provide no protection from tornadic winds, leave them and go to a substantial structure or designated tornado shelter. Do not attempt to seek shelter beneath an overpass or bridge. They provide little or no shelter and have proved to be deadly options.
- If caught in the open, lie flat in a culvert, ditch or depression and cover your head.

These simple steps could save your life.

For more information, visit the National Oceanic Atmospheric Administration's (NOAA) Severe Weather Awareness page at www.noaa.gov ☞

OUTDOOR WARNING SYSTEMS

1. What should I do when I hear the sirens?

When the sirens are heard go inside and tune to local media for more information.

2. Why can't I hear the sirens in my house?

Sirens are an outdoor warning system designed only to alert those who are outside that something dangerous is approaching.

3. How can I get alerts when I'm at work or in my house?

For alerts indoors, every home and business should have a NOAA Weather Radio. A NOAA Weather Radio is like a smoke detector for severe weather and it can wake you up when a warning is issued for your area so you can take appropriate action. Cable television also carries extreme weather alerts that can be useful.

4. When are sirens tested?

Sirens are tested the first Tuesday of every month at 10:00 a.m.

5. Why don't the outdoor warning sirens sound an all-clear signal?

People should be indoors and monitoring local media for updates on the storm.

6. Will the sirens warn me of every dangerous storm?

The safest approach is to be proactive and use all of the information available to protect yourself and your family from threatening weather. Nothing can replace common sense. If a storm is approaching, the lightning alone is a threat. Sirens are only one part of a warning system that includes preparation, a NOAA Weather Radio, and local media.

For more information regarding the outdoor warning system please contact the Deerfield Police Department at 847.945.8636 ☞

NATIONAL TELECOMMUNICATORS WEEK: APRIL 14 - 20, 2013

Each year, the second full week of April is dedicated to the men and women who

serve as Telecommunication Officers. In October, 1991, Congress made a formal proclamation to recognize this week as National Telecommunicators Week.

Deerfield has 8 full-time and 2 part-time Telecommunicators. Telecommunicators serve as an indispensable link between the officers and the public, as well as a vital support service in the public safety community. They provide radio, telephone and dispatch services with dedication and professionalism.

The Deerfield Telecommunicators are proud to serve the Deerfield community and thank you for the opportunity to make a difference each and every day. The Village will celebrate the week by issuing a proclamation from Mayor Rosenthal and the Village Board. Please take the time to thank this group of heroes. ☞

NATIONAL PRESCRIPTION DRUG TAKE-BACK DAY

The Deerfield Police Department will again be participating in the Drug Enforcement Agencies National Prescription Drug Take-Back Day on Saturday, April 27 from 10:00 a.m. to 2:00 p.m., at the Deerfield Police Department, 850 Waukegan Road.

Take this opportunity to drop off unused or expired prescription medications for destruction. Unused or expired prescription medications are a public safety issue and can lead to accidental poisoning, overdose and abuse. Most abused prescription drugs are obtained through family and friends.

The Deerfield Police Department's participation in both the Take-Back program as well as the Save-a-Star program demonstrates the commitment to our mission to provide professional and ethical service to our citizens while proactively identifying risks to Deerfield's quality of life.

For more information, please contact the Deerfield Police Department at 847.945.8636 or www.deerfield.il.us ☞

ARE YOU A SWIFFER FLUSHER?

Dry/wet cleaning cloths and wipes, such as Swiffer and Lysol, are gaining popularity in the marketplace especially with flu season upon us. When people flush these cloths down toilets they cause problems in your sewer line and in the Village sewer system.

These wipes are not biodegradable; they do not dissolve in the sewer pipes. They do, however, get caught on debris such as roots in the sewer lines. One or two cloths may not stop the flow of sewage out of your residence but the cloths could build up over time necessitating a call to a plumber. Additionally, these cloths do not tear easily and can clog the sewage lift station pumps and cause backups in the sewer system.

The directions on the containers of these products state that the cloths are to be disposed of in the trash and are not to be flushed down the toilet. Please dispose of these cleaning and disinfecting cloths in the trash. ♪

DEERFIELD HISTORICAL SOCIETY HOSTS ANNUAL SPAGHETTI DINNER

The Deerfield Area Historical Society will host a spaghetti dinner on Thursday, April 18, at 6 p.m., at the Patty Turner Center, 375 Elm Street, Deerfield. The dinner, provided by the Italian Kitchen, includes salad, spaghetti and meatballs, bread, beverages and dessert for \$11 per person. Following the dinner, there will be a talk by a guest speaker. Proceeds will benefit the Deerfield Historic Village.

Reservations are required. Pay at the door. Please call 847.948.0680 by April 12.

To learn more about the Deerfield Area Historical Society visit www.deerfieldhistoricalsociety.org ♪

COLLEGE/POST-SECONDARY INSTITUTION SCHOLARSHIPS BY PARK FOUNDATION FOR 2013

The Park Foundation announces, thanks to contributions from a number of donors to date and to the generous support through funds raised at the Whole Foods Market Deerfield “5% Community Giving Day,” two (2) \$1,000 College/ Post-Secondary Scholarships are being offered to be used toward the 2013-2014 term.

With a deadline this year of Friday, April 5, the Foundation’s Scholarship Committee is now in the process of accepting materials. The Linda Gryziecki Scholarship application form and related information may be found at www.deerfieldparkfoundation.org. The Foundation’s Scholarship Committee plans to review submitted materials later in April, select candidates in May and present awards at the Deerfield Park Foundation meeting set for Monday, May 20, 2013.

The Scholarship is named after Linda Gryziecki, retired Deerfield Park District Executive Director who served the community for 38 years. Anyone interested in contributing to the Linda Gryziecki Scholarship Fund may visit www.deerfieldparkfoundation.com.

For more information about this scholarship, please contact the Deerfield Park Foundation at 847.572.2611 ♪

WEB STREAMING - WATCH VILLAGE BOARD MEETINGS

Village Board meetings can be watched live or afterwards on-demand on the Village’s website. WEST DEERFIELD TOWNSHIP - GOING PLACES

The West Deerfield Township and the Deerfield Park District have joined forces to provide more cost-efficient senior transportation options. *Going Places* - is an appointment-based program that provides independence to those who might otherwise find it difficult to get to physician or dentist appointments.

Going Places is a transportation service for West Deerfield Township residents who have mobility challenges that may restrict their ability to meet their health care needs. The Township minivan accommodates wheelchairs, walkers, and companions.

How do I apply? Mobility-challenged residents from West Deerfield Township must pre-register with the Township Transportation Department. Riders must also complete a form, signed by a physician, indicating the rider is able to ride in a sitting position.

Where does the van go? Trained drivers will pick up riders and deliver them to appointments at local medical offices and hospitals as well as the V.A. Hospital in North Chicago and even non-medical appointments when time and space permit.

How do I make an appointment? Rides may be scheduled directly with the Transportation Secretary at 847.945.0614 ext. 310. Medical riders, who can book up to 30 days in advance, are given first priority. Call to make your request for non-medical transportation three days in advance. Requests will be granted if scheduling allows.

What does it cost? The fee is \$5.00 round-trip, or \$2.00 for veterans.

REMINDERS:

EARTH HOUR 2013

On Saturday, March 23, from 8:30-9:30 p.m., households, organizations and businesses across Illinois will turn off their lights and turn their attention towards the need for substantial, long-term action to raise awareness about energy efficiency and global climate change.

Last year, more than 2.7 million Illinois residents helped the lights in communities across the state go dark for one hour — Earth Hour.

DAYLIGHT SAVINGS TIME

Remember to turn your clocks ahead one hour— from 2:00 a.m. to 3:00 a.m.— on Sunday, March 10.

FINE ARTS FESTIVAL

The 2013 Festival of Fine Arts will take place from 10:00 a.m. - 5:00 p.m. on Saturday, June 1, and Sunday, June 2.
