FINE ARTS FESTIVAL PURCHASE AWARD

The 9th annual Festival of Fine Arts was held on June 4th and 5th at the corner of Robert York Road and Jewett Park Drive. Over 100 artists from all across the country came to Deerfield to participate in this weekend of art.

Silk art creator, Prince Duncan-Williams, received the Festival Purchase Award. Nearly 4 decades in the making, Prince Duncan-Williams has perfected art carried down from generations to create breathtaking large scale masterpieces that combine African and American culture.

Prince is most inspired by Jazz music, rythm, harmony, Native Art and the great Pablo Picasso and Henri Matisse. The musical influence is apparent in his pieces from the harmonious juxtapositions of colors and shapes creating a melody of color, texture and perfectly balanced shapes.

Silk art creation is unique, laborious and complicated process in which blended silk and rayon thread is arranged by hand and glued in rows. The rows of thread work around a spiral and, every so often, change direction, creating facets, patterns and depth. These contrasting flows of colorful thread enhance the texture and mood of each dazzling image, creating a truly unique art form unto itself. There is no stitching involved in silk art creation; every piece is done entirely by hand, making each an original. Depending on the size, each silk art creation requires 40 to over 320 hours of meticulous labor.

Prince Duncan-Williams' award winning piece, "Jazzy" is now on display at Village Hall outside the Robert D. Franz Council Chambers

CONSTRUCTION UPDATES:

CARLISLE AVENUE AND CARRIAGE WAY

The purpose of the project is to reconstruct and rehabilitate the existing Village roadway and utilities on Carlisle Avenue between Deerfield Road and Briarwood Nature Area; and Carriage Way between the Briarwood Nature Area and Bent Creek Ridge. The project is relatively complex with an approximate cost of \$4.2 million. Improvements include complete replacement of the existing roadway, water main replacement, point repairs on storm and sanitary sewer systems, lighting system upgrades, and sidewalk replacement as needed.

The project has spanned two construction seasons, the first having been completed in 2010. Phase I of construction began in June 2010 along Carlisle Avenue and was substantially completed in fall 2010. Phase II of construction began in spring 2011 along Carriage Way. The final surface course of pavement has been placed on both Carlisle Avenue and Carriage Way. The project is now 99% complete, with minimal landscape restoration, light pole installation and punch list items remaining.

STREET REHAB PROJECT

Each year the Village of Deerfield utilizes Motor Fuel Tax funding, administered through the State of Illinois, to rehabilitate/reconstruct local streets at locations that are determined by the Department of Public Works and Engineering.

The scope of work for this year includes pavement removal and replacement, pavement patching, curb and gutter removal and replacement, sidewalk removal and replacement, adjustment of structures and parkway restoration. This year the work will be performed by A-Lamp Concrete Contractors, for a total contract amount of \$1.2 million and will begin after July 10.

The streets scheduled for roadway rehabilitation include:

- Hazel Avenue from Wilmot Road to Chestnut Street

- Somerset Avenue from Prairie Ave to Broodmoor Place
- Chestnut Street from Hazel Ave to Greenwood Ave
- Sheridan Ave from Somerset Ave to Hazel Ave

Additionally, there will be limited repairs to curbs, sidewalks, and roadway pavement in various locations throughout the Village.

The Hazel Avenue construction will not begin until the Deerfield Road underpass is fully open.

Please refer to the Village's website www.deerfield.il.us (click "Construction Updates" on the homepage) for additional project information, detour maps and construction updates. ↻

DEERFIELD ROAD PEDESTRIAN UNDERPASS

Deerfield Road is bisected by the Metra tracks that provide service for Metra Milwaukee North Line, Amtrak, and the Soo Line Railroad. The sidewalks adjacent to Deerfield Road, which go under the railroad tracks are very narrow. The project involves installing a pedestrian underpass of the Metra tracks, on the south side of Deerfield Road, behind the railroad bridge abutment. The new walkway will be ADA accessible and provide convenient connectivity to the existing pedestrian bridge over Deerfield Road.

The project is substantially funded through outside grants. Both the Illinois Transportation Enhancement Program (ITEP - \$367,000) and Congestion Mitigation and Air Quality Program (CMAQ - \$2,200,000) have awarded funds. These will cover 80% of the cost of design and construction. The project was awarded to Herlihy Mid-Continent Company in July of 2010 and is expected to be in use by late July 2011. ↻

CENTRAL AVENUE AND JUNIPER COURT BRIDGE REHABILITATION

As directed by the Illinois Department of Transportation (IDOT), the Central Avenue bridge and the Juniper Court bridge will be reconstructed during the late summer/fall of 2011. Utilizing the funding provided through the Highway Bridge Replacement and Rehabilitation Program (HBRRP), the Village of Deerfield will have the opportunity to take advantage of 80% Federal/20% Village cost participation.

The bridges are expected to be closed completely for the repairs. The project will be awarded in July, 2011. More detailed construction schedules and contract information will be available as the project moves forward. ↻

SURPRISED BY THE SIGHT OF A TRAIN WHILE THE GATES ARE UP?

To alleviate some questions and concerns from residents regarding the operation of rail crossings, warning bells, lights and gates, Metra advises that there is one train every weekday in the morning rush hour and five trains in the afternoon/evening rush hour, which terminate in Deerfield and then return to Chicago. These trains stay just north of the Greenwood Avenue crossing while the engineer walks from the locomotive to the cab car at the other end of the train in preparation for the return trip to Chicago. The gates at Greenwood Avenue are wired to remain upright until the dispatcher clears the signal for the train to leave in the other direction. The signal will not change to allow the train to leave until the gates are fully lowered.

Also, at the Hazel Avenue and Osterman Avenue crossings, gates will descend as trains approach the station. If the train that caused the gates to go down then stops at the station, the gates will typically go back up while the train is stopped. Once the train starts to move again, the gates will go back down before the train gets to the roadway crossing. It is always smart to stop, look and listen for a train before you cross the tracks. Remember that gates should be down at all times when a freight or Amtrak train passes through town. ↻

BE AWARE OF GYPSY SCAMS

Spring and summer are very active times for Gypsy-related criminal activities. Three major crimes committed by Gypsies are:

- Home repair fraud
- Ruse entry burglary
- Burglary

Gypsies (individuals of Gypsy culture who have elected to live a criminal lifestyle) who commit these types of crimes are usually career criminals, and specialize in this kind of criminal activity. Note that it is the “style” and not the “con” that identifies the crime as Gypsies. Traditionally, these types of Gypsy crimes are generally non-violent.

The appearance of a Gypsy can be generally described as medium to dark complexioned Caucasians, who are often mistaken as Hispanic. Dark hair and eyes are common characteristics. The number of suspects involved can be between two and six. At times, American Gypsy women and children will accompany a male suspect, or two women will work as a team. A look-out is often used and usually sits in the vehicle and may sound the car horn if the police are spotted. You should note that Gypsies are experts at false identification and will use a variation of family names and birth dates.

Gypsies who commit these crimes are career criminals specializing in home repair fraud and ruse entries. They primarily target the elderly, who are ideal suspects for their crimes. Gypsies are experts with profiling senior citizen’s homes. They will target a home by the style of drapes, poorly maintained lawns, single garbage cans, and four-door sedans.

Home repair fraud:

Gypsies cruise residential neighborhoods searching for elderly persons outside their homes. Once located, they approach the elderly person and offer to do some sort of home repair work (driveway seal coating, tree trimming, roof repairs, etc.) The price might be very low, or very high depending on the mental state of the victim.

If the price quoted is low, generally when the work is completed, the money asked for is much higher. Any work done is usually substandard in nature. If given the opportunity, the suspects may commit a residential burglary to the home by distracting (occupying) the home owner while another crew member searches the home.

Ruse Entry (burglary)

Again, after selecting a home by profiling it, a Gypsy will claim to be a utility worker, village employee, or a contractor. They then will enter the home using the ruse of checking something (water pressure, fuses, pipes, etc.). While one Gypsy keeps the victim occupied (running water, checking lights, or even directing the home owner to the rear of the house to view out the back window), one or more additional gypsies enter the home (undetected) and commit a burglary.

How to protect yourself:

- Never allow someone to perform driveway sealing, or home repairs on the spot. Ask for business cards to check on the reputation of the business, and **end the conversation**. If possible, get a vehicle plate number and inform the police department of the activity. Do not deliberate or debate work that needs to be done. Gypsies will press a sense of urgency.
- Never let anyone into your home. If someone claims they need assistance, tell them you will contact the police to assist them. If they indicate they are with a utility company, call the utility company to verify the work.
- If you are approached while you are outside, do not let anyone roam your property. This usually gives them an opportunity to check for open doors while you are being distracted.

Note: This information about Gypsies only deals with those individual self-proclaimed Gypsies who have elected to live the criminal lifestyle.

There are other transient criminals, who do similar types of cons. All of the above advisories should be followed regardless.

If you have further questions on Gypsy crimes please contact the Deerfield Police Department at 847/945.8636. ☞

FLOWER PLANTER PROGRAM PARTICIPANTS

The purpose of the program is to provide color and beauty to enhance downtown Deerfield. The Village would like to recognize the following businesses and property owners who participated in the 2011 Flower Planter Program:

- Deerfield Village Centre (Prime Source Centre)
- Running Away Multisport
- Elizabeth Arden Red Door Salon and Spa.

The colorful planters were also placed at the Deerfield Cemetery and Village Hall. The Village looks forward to more merchant participation next year to give the Village Center even more color and beauty.

ARBOR DAY

Arbor Day first began in 1872 when J. Sterling Morton proposed to the Nebraska Board of Agriculture that a special day be set aside for the planting of trees and thus the Arbor Day holiday was observed. Now, Arbor Day is observed throughout the world as the benefits associated with planting trees are numerous.

The Village Board accepted a proclamation declaring Friday, April 29th Arbor Day in Deerfield. The Village urges all citizens to celebrate Arbor Day and to support efforts to protect our trees and woodlands. The Village of Deerfield planted a Prairie Fire Crab Apple tree at the intersection of Wincanton Drive and Dimmeydale Drive in Celebration of Arbor Day.
