

2017 HOMEOWNERS FLOODPROOFING EXPO & WORKSHOP

Join us to learn about various products, services, and solutions to minimize flood damages to your homes and properties. The expo portion of this event will be an opportunity for you to explore exhibitor tables for companies, vendors, and other resources. Presentations by industry experts will take place upstairs every hour, where you can learn about how drainage systems work and ask questions about anything from flood insurance to best practices for flood damage protection. Both portions are free to the public and we hope to see you there!
