For Immediate Release

Deerfield Road Project Open House May 13, 2015

The Village of Deerfield will be hosting a Deerfield Road project open house on Wednesday, May 13, in collaboration with AT&T, Commonwealth Edison and the DBR Chamber of Commerce. Representatives of the Village and the utility companies will be present to provide an overview of the upcoming Deerfield Road project and answer questions. A meeting will be held at **3 p.m. for businesses** and a second meeting will be held at **6 p.m. for residents**. The meetings will be held in the Council Chamber of the Deerfield Village Hall, 850 Waukegan Road. The meeting will be recorded and available on-demand at the Village's website for subsequent viewing.

AT&T and ComEd will be relocating their utilities this summer in advance of the Deerfield Road reconstruction work scheduled for 2016. The utility relocation work is expected to impact traffic on Deerfield Road for several months this year. Additional project information will be available at www.DeerfieldRoad.com.

Residents and businesses are encouraged to attend the open house to learn more about the upcoming construction work.
