Mayor Rosenthal Statement on Caterpillar Naming Deerfield as New Global Headquarters

In response to today's announcement that Caterpillar, Inc., is relocating its Global Headquarters to the Village, Deerfield Mayor Harriet Rosenthal has released the following statement:

“We are pleased that Caterpillar selected our community as the location for its new global headquarters. Caterpillar joins several other well-known national and international companies who enjoy the amenities and ease of access to transportation that Deerfield has to offer, as well as the wide-range of housing stock, award-winning schools and great recreational facilities.”

“We look forward to welcoming them to Deerfield,” she added. “We invite Caterpillar and their employees to explore our neighborhoods and business districts to discover for themselves what makes Deerfield a great place to call home.”
